BOUNDARY RIDERS

From his new studio/gallery at Springbrook, Queensland, in the rainforest ranges, just a little outback of the Gold Coast, John is currently producing his "Nature of Australia" series. Paintings inspired by his travels throughout Australia and in particular the areas of the beautiful Numinbah valley that are right at John's backdoor. John says, "the valley is rich with subject and scenery equal to anywhere in this country". Come up and visit John at his studio, by appointment, just forty kilometers from the Gold Coast. Take a look at the art or discover for yourself one of the most beautiful areas of Australia.

ON THE WAGON
